

# GOOD WATER BRINGS BETTER HEALTH

“Water for health, for healing, for life”

## As DEW Water Enhancer

enhance drinking water to become:

### ✓ ALKALISED

Raises the water's pH level to mildly alkaline (pH 7.2 – 9). Lowers Oxidation Reduction Potential (ORP) and helps to neutralise free radicals in the body.

### ✓ VITALISED

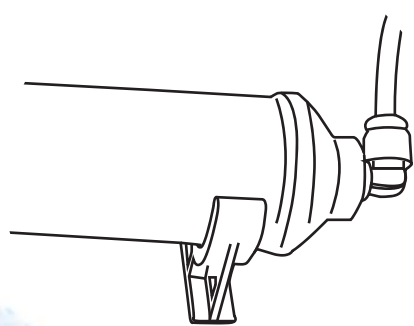

Helps to energise the body by micro-clustering water molecules to allow easier absorption into cells. Improves metabolism by rapid hydration of the body.

### ✓ MINERALISED

Releases vital elements such as calcium, silicon and iron into the water.

### ✓ PURIFIED

Cleanses water by reducing the level of harmful elements such as chlorine, arsenic and lead, as well as inhibiting microbial growth.

As Dew Water Enhancer includes John Guest Push Fittings to easily installed post most undersink water filtration system to make clean water better.

Under average household usage, As Dew Water Enhancer will only need to be replaced every 6 to 12 months.
