

EXTRA Volume

- ✓ Provide 30,000 litres of clean, healthy, pure and tasty water for your whole family
- ✓ A whole year of clean water for drinking, cooking, washing of fruits and vegetable
- ✓ More than 5 times the capacity of traditional water filtration systems

EXTRA Lasting

- ✓ Both stages of water filter cartridge only require replacements every 12 months
- ✓ Innovative and patented multi-layered cartridge design ensure superior quality
- ✓ Complete utilisation of the whole water filter cartridge means longer lasting

EXTRA Safe

- ✓ Antimicrobial agent to inhibit bacteria growth inside water filter cartridge
- ✓ Eliminate odour and secondary contamination from the exponentially growing bacteria
- ✓ Inclusion of nano-zinc in filtration cartridges ensure clean, healthy & tasty water

EXTRA Hygiene

- ✓ Cartridge housing/casing are replaced at the same time when filter cartridges are replaced
- ✓ Dirt sediments, algae, bacteria etc. accumulate at cartridge housing grooves & joints
- ✓ Secondary and post filtration contaminations are avoided with new cartridge housing

EXTRA Easy

- ✓ Twist Lock Leak-proof disposable cartridge makes replacing cartridge easy
- ✓ No tools or wrench required to change water filter cartridge and housing
- ✓ Enclosed/leak-proof filter cartridge housing eliminate water spillage and flooding

EXTRA Saving

- ✓ Clean, healthy & tasty water for the whole family costs less than a bottled water a day
- ✓ Requires no electricity for water filtration saving energy and running costs
- ✓ No waste water is produced thus minimise water usage - environmentally friendly.

Tap water is not clean...

WHAT'S IN OUR TAP WATER!

Dirts & Silts

- Soil & mud
- Rust & silts
- Animal wastes
- Sewage Runoff

Microbes & Parasites

- Bacteria
- Viruses
- Cryptosporidium & Giardia
- Algae

Chemicals

- Chlorine
- Lead
- Fluoride
- Mercury
- Sulfur
- Nitrates
- Pharmaceuticals

Volatile Organic Compounds (VOCs)

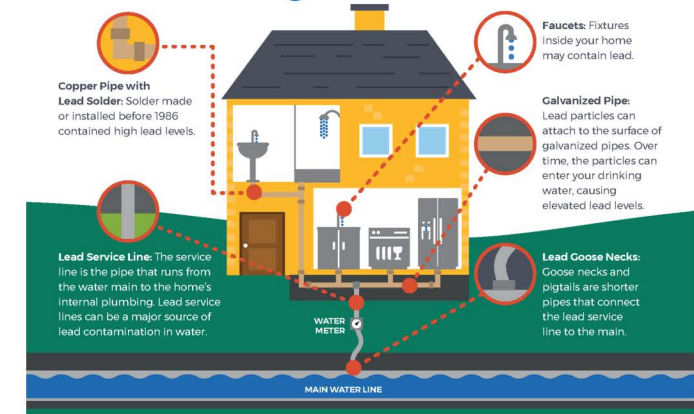

- Hydrocarbon -Petroleum
- Solvents - cleaners, inks
- Pesticides - Glyphosate

Lead is TOXIC...

CONCERNED ABOUT LEAD IN YOUR DRINKING WATER?

Sources of LEAD in Drinking Water

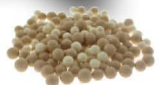

Chlorine is a TOXIC bleaching agent...

As DEW WATER ENHANCER

Activated Charcoal

Ceramic Balls

✓ ALKALISED

Raises the water's pH level to mildly alkaline (pH 7.2 - 8.5). Lowers Oxidation Reduction Potential (ORP) and helps to neutralise free radicals in the body.

✓ MINERALISED

Releases vital elements such as calcium, silicon and iron into the water.

✓ PURIFIED

Cleanses water by reducing the level of harmful elements such as chlorine, arsenic and lead, as well as inhibiting microbial growth.

✓ VITALISED

Helps to energise the body by micro-clustering water molecules to allow easier absorption into cells. Improves metabolism by rapid hydration of the body.

As Dew water enhancer must be installed post water filtration system or Reverse Osmosis water system, but before the faucet. Must not be connected directly to tap water

*Optional product, additional costs applies.

Our vision at *As DEW* is to share nature's best gift - pure, clean, healthy and tasty water with everyone. We strive to develop eco-friendly, sustainable and inexpensive methods to clean, purify and enhance drinking water.

Water for Health, for Healing, the Source of Longevity

Water is the most precious gift of nature to mankind. Yet population explosion, industrialization and environmental pollution have all caused significant damages and contaminations to this essential and biggest gift. Our drinking water is no longer clear, pure, free of chemicals or bacteria contamination. Everyone needs clean, healthy, pure and tasty drinking water in-order to enjoy healthy life.

Our THREE core values

Simpler is Better

Learn & Mimic Nature

Be Kind to Nature;
Be Kind to Self

CLEAN HEALTHY TASTY
